## Pop-Up Power Strip

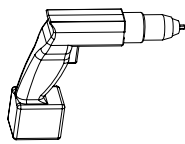

IIERGOPS014

iiglo®

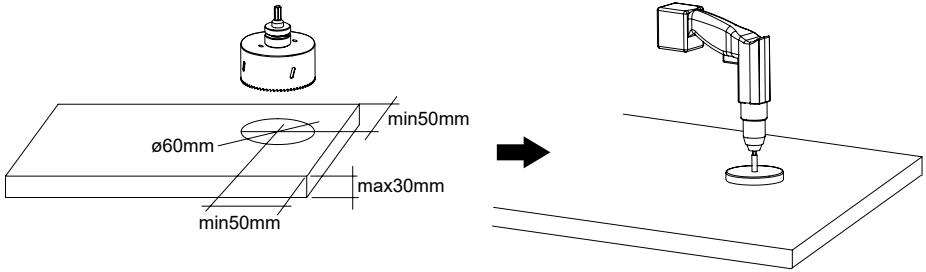

60mm/2.4" Diameter Hole Saw  
(Not Included)

Power Drill  
(Not Included)

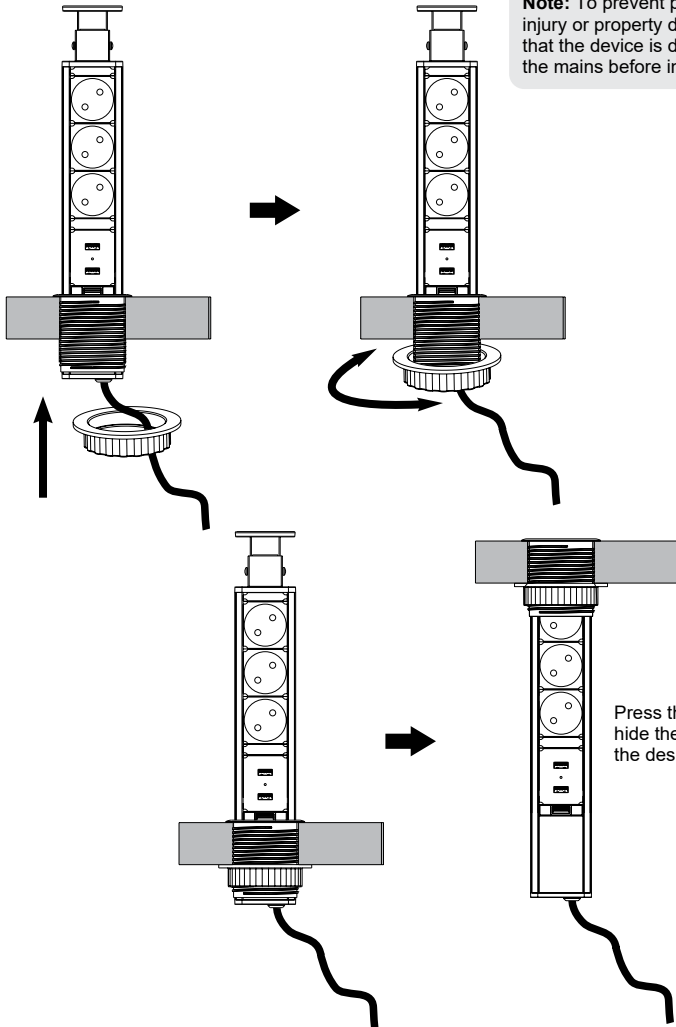

**1**

Mark a hole position on the desktop as shown and drill the hole using a power drill with a 60mm (2.4") diameter hole saw. Prior to cutting the hole, ensure the area below the desk is clear of any objects such as wire or cable.

**2**

Insert the power column into the cut-out hole located in the desktop and then tighten the locking ring under the desk.

**Note:** To prevent possible personal injury or property damage, ensure that the device is disconnected from the mains before installation.

Press the spring latch to hide the power strip under the desk while not in use.
